
Quick Charge 3.0/Power Delivery with 15A Duplex Tamper Resistant Receptacle Interchangeable Face Cover

Model No: 61150-QCPD

Description

The 61150-QCPD is the industry's first dual Qualcomm Quick Charge 3.0 and Power Delivery USB charger with an interchangeable face cover and a Tamper Resistant Receptacle. With Qualcomm Quick Charge 3.0 and Power Delivery you can plug your QC/PD devices into either USB port and the technology will recognize the device and charge it with optimum power. The USB ports are protected from Over Current, Short Circuit, and Over Charging so you don't have to worry. With full compatibility and interoperability, there's no need for multiple adapters or special plugs. Just plug a USB cable into one of the two USB ports.

Features

- The Qualcomm certified Quick Charge 3.0 and Power Delivery USB ports are capable of charging devices up to 4 times faster than conventional charging
- Quick Charge 3.0 is backwards compatible with Quick Charge 1.0 and 2.0 devices
- Power Delivery USB Type C is backward compatible with non-PD devices
- The most advanced and efficient charging technology to date
- Interchangeable face cover
- Wire Terminals are designed for easy installation from the back
- Over-current and short circuit protection

Specifications

Receptacle Rating	15A, 125VAC
QC3.0 Port	3.6-6.5V / 3A, 6.5-9V / 2A, 9-12V / 1.5A
PD Port	5V/3A, 9V/2A, 12V/1.5A
Wire Terminals	#14-#12 AWG
Operating Temp	-4 to 140°F (-20 to 60°C)
Supports	USB 2.0, including Apple products
Strip Length:	0.5 inch (back wire hole) 1 inch (screw terminal)
Warranty	2 Year

Application

- Cafes
- Airport Lounges
