# SUPERIOR CHARGING, WHEREVER IT'S NEEDED.

From bedroom to boardroom, university to hospital, we use our mobile devices to work, play and stay connected to those who matters most.

That's why Legrand offers an extensive selection of charging solutions to provide today's spaces with all the power modern life demands, enhanced with features for superior convenience, speed and ease.

## Made for everywhere people go:

- Commercial Spaces
- Homes & Residential Properties
- Hospitals & Healthcare Facilities
- Hotels, Restaurants & Event Centers
- Office Spaces
- Outdoor Spaces
- Schools, Colleges & Universities

# RAISE THE BAR WITH SUPREME CONVENIENCE.

Built-in charging has always been about convenience, enabling users to get the battery boost they need without locating that bulky adapter or sacrificing a plug.

Legrand takes it to a whole new level, though, with an expanding range of options that can do more and go anywhere.

## The First-Ever GFCI USB Outlets

Commercial | Residential | Healthcare | Hospitality  
Office | Outdoor | Education

Putting more within reach, Legrand's Tamper-Resistant GFCI USB Outlets provide self-testing ground fault protection and modern USB charging in a single solution. Extending the legacy of safety and reliability Legrand is known for, now you can add charging convenience anywhere and everywhere it is wanted – even in locations where GFCIs are required. Choose from USB Type-A/A, USB Type-A/C and USB Type-C/C port configurations.

**Available from the radiant® Collection of designer switches and outlets.**

## ModPower™ Sytem

Commercial | Office | Education

Another industry first, this Wiremold® solution is a code-compliant modular power system designed to give users the freedom to easily add and reconfigure power and charging whenever and however is needed. Up to six modular units can be connected within a single system. Choose from in-surface and on-surface versions for increased flexibility.

## Furniture Power Centers

Commercial | Hospitality | Office | Education

Add USB charging right where it's needed – directly into the furniture itself. From lobby armchairs to conference room tabletops, Legrand's variety of furniture power solutions combine sleek, modern design with the functionality of USB charging, traditional power and more. Quick and easy to install, furniture can be ready to recharge devices in no time. Choose from multiple configurations, styles and finish options to meet a space's charging needs while blending in with its décor.

**Available from the adorne® and radiant® Collections of designer switches and outlets.**

# RAISE THE BAR WITH LEADING SPEEDS.

Speed matters. So, Legrand incorporates cutting-edge charging technologies to continually push the limits. Our USB outlets include the fastest options in the industry, with specialized solutions to add unrivaled charging speed to any space.

### What is USB Type-C?

A newer – and increasingly popular – type of USB connection port, USB Type-C was designed to handle more power (for faster speeds) while boasting a smaller and conveniently reversible insert.

## Ultra-Fast USB Outlets

Commercial | Residential | Healthcare | Office  
Outdoor | Education

Thanks to a staggering 6 amps of charging power and the Smart Chip technology that maximizes speeds for each of their USB connections, the Ultra-Fast USB Outlets charge smartphones and tablets up to 40% faster. Choose from USB Type-A/A, USB Type-A/C and USB Type-C/C port configurations.

**Available from the adorne® and radiant® Collections of designer switches and outlets.**

## Ultra-Fast Plus Power Delivery USB Type-C/C Outlets

Commercial | Residential | Office  
Outdoor | Education

This is how you get to a full battery faster. Combining the industry-leading amperage of our Ultra-Fast line with advanced Power Delivery, this solution employs intelligent charging to max out the fast-charging potential of the latest smartphones and tablets. The result? Charging speeds up to 2X faster. These outlets also include multilayered overcurrent protection to prevent damage to outlet or devices.

**Available from the adorne® and radiant® Collections of designer switches and outlets.**

### What is Power Delivery?

Power Delivery is a technical standard that enables USB Type-C devices to effectively negotiate, then deliver/receive, the exact amount of power needed to safely maximize charging speed.

### Check Your Charge:

The Ultra-Fast Plus Power Delivery USB Outlets also feature indicator lights for each of the included ports, allowing users to check charging status at a glance. The light shows as yellow while charging is in progress and changes to green once a device is 90% charged.

# RAISE THE BAR WITH WIRELESS EASE.

For users wishing to ditch more than the adapter, Legrand offers advanced Qi-certified solutions that don't even need the power cords or cables. Stylishly designed and performance inspired – start charging like never before.

## Wireless Charger

Residential

A ready-made charging station, this in-wall solution features a wireless charge pad and clear cradle to hold Qi-enabled smartphones perfectly in place while charging – without any cords or clutter. Installing in place of a single-gang outlet, the Wireless Charger also includes traditional power access and a built-in USB Type-A port.

**Available from the radiant® Collection of designer switches and outlets.**

## Wireless Charging Puck

Commercial | Hospitality | Office | Education

Turn any desk, table or nightstand into a sleek wireless charger with the furniture-ready Wireless Charging Puck. After an easy installation, this Wiremold® solution sits flush against the surface for a truly seamless look. Provide speedy Qi-certified wireless charging for users looking to recharge their smartphones and tablets nearly anywhere that furniture can go.

### What is Qi-Certified Charging?

Technology standards like Qi are used to ensure safe and effective compatibility across many device manufacturers. Qi-certified devices have been tested by the Wireless Power Consortium to confirm interoperability.
